

**AMENDMENTS TO THE CLAIMS**

**This listing of claims will replace all prior versions and listings of claims in the application:**

**LISTING OF CLAIMS:**

1. (currently amended): A laminate having a layer (A) comprising a fluororesin and a layer (B) comprising a fluorine-free organic material, wherein said laminate has a fuel permeation rate of not higher than 1.5 g/m<sup>2</sup>/day, the polymer constituting the fluororesin is a chlorotrifluoroethylene copolymer comprising chlorotrifluoroethylene units, tetrafluoroethylene units and monomer [A] units derived from monomers [A] copolymerizable with chlorotrifluoroethylene and tetrafluoroethylene, said chlorotrifluoroethylene unit and said tetrafluoroethylene unit amounting to 90 to 99.9 mole percent in total, said monomer [A] unit amounting to 10 to 0.1 mole percent and at least one of ethylene and a fluorine-containing monomer.

2. (original): The laminate according to Claim 1, wherein the fluororesin comprises a fluororesin (a) having a fuel permeation coefficient of not higher than 1 g·mm/m<sup>2</sup>/day.

3. (original): The laminate according to Claim 2, wherein the fluororesin (a) comprises a fluororesin (a1) having a fuel permeation coefficient of not higher than 0.3 g·mm/m<sup>2</sup>/day.

4. (canceled).

5. (canceled).

6. (canceled).

7. (previously presented): The laminate according to Claim 1, wherein the fluorine-free organic material comprises a polyamide-based resin and/or a polyolefin-based resin.

8. (previously presented): The laminate according to Claim 1, which is a laminate for a fuel tube, wherein said layer (A) is the fuel tube innermost layer.
